East Hanover, NJ 07936

Dear Pro-Tec,

In 2013 St. Matthew the Apostle Parish celebrated its 25th year anniversary. As this was a special occasion for us, we wanted our church to closely resemble the way it looked back in 1994 when the building was first built. After meeting with our finance and building committees and discussing recommendations from some of our parishioners, St. Matthews decided to contract with Pro-Tec “Building Restoration Services.”

The proposal submitted to St. Matthews from Pro-Tec was clearly detailed and included an outline of the work to be performed, observations, pictures and a multi-phased solution for our project. It highlighted problem areas that existed and provided a comprehensive solution to repairing the related area.

We were very pleased with the owner, Jim Murphy, and Pro-Tec team from the early planning stages all the way through completion of the project. Our project team was courteous, efficient and kept the grounds clean at all times. Our project manager kept us apprised of the project and provided adequate supervision to ensure everything ran smoothly and timely.

St. Matthew’s was extremely happy with the quality of the work performed by Pro-Tec and would highly recommend their services.

Thank you,
Leslie A. Doherty
Business Manager
St. Matthew the Apostle Parish
